Qin Qing had a good summer holiday at home with her older sister and her relatives. She didn't travel to other places, but stayed at home. Her uncle sent her and her older sister back to the care center a few days ago. She was happy to see her friends at the care center. Her friends were excited to see her too. Now she's in the third grade class. There are more than 60 students in her class! Students don't get much attention from the teacher so she must study hard. She behaves well and always smiles! She likes exercising and performing routines with other girls in our dining hall! We love her. Thanks for being her sponsors. She has a wonderful life because of your loving support. Please keep her in your prayers this year.
